What's Microlearning?

Your EAP Training Center has more than 10,000 online personal & professional development trainings in multiple user-friendly formats.

They cover work and life skills, leadership, technology, health & wellness, and more. Many are in microlearning video formats of 10 minutes or less – you'll be surprised how much you can learn in multiple short sessions over a few weeks. Or if you prefer a single session, you can go deeper on key topics in eLearning courses of 30 minutes or more.

Learning has never been so easy! And remember, these are free and available to your family members too!

To start exploring, just login to www.theEAP.com/TotalCare-EAP and click on The Training Center, and then on "New and Improved Trainings!"

Harvard Pilgrim
Health Care

There are some interesting and helpful resources on the Harvard Pilgrim website that you may not be aware of, such as **"Estimate My Cost"** and **"Look Up Drug Prices."**

With **"Estimate My Cost"** you can find cost estimates for over 800 services (office visits; lab and radiology services; outpatient procedures; and inpatient procedures). Compare cost estimates for up to four different providers.

Ever wonder what the price of your medication is? There's a tool for that too!

[ESTIMATE MY COST](#)

[LOOK UP DRUG PRICES](#)

Lisa Erlandson just celebrated 32 years!

Ticia Allain-Martin just celebrated 22 years!

Danuta Stasiewicz just celebrated 18 years!

Keely Benson just celebrated 10 years!

Thank you all for your hard work and dedication.
We appreciate all you do!

“Enrollment Period For New Goshen Broadband Service Open”

The initial subscription period for the town's new fiber optic broadband network is underway. According to Wayne Glaser, vice-chair of the Select Board, there have been 450 enrollments for the service.

“Baker-Polito Administration Awards Harvard and Boston University \$3 Million for Assistive Robotics and Wearable Technology Research”

The Baker-Polito Administration announced a new grant award of \$3,057,320 to Harvard University and Boston University to support the development of next-generation robotics and wearable technologies. Researchers aim to improve the lives of people with neuro-motor impairments and to help individuals achieve ambitious fitness goals, driving innovation in a new category of rehabilitation, diagnostic, and assistive devices that are more lightweight, affordable, and connected.

Innovation Institute Launches the “Strong Entrepreneur Ecosystems” Grant Opportunity

The Innovation Institute seeks to encourage the development of entrepreneur-led economic development strategies through its Strong Entrepreneur Ecosystems Solicitation. Entrepreneur-led economic development strategies put successful local founders at the heart of development initiatives to understand their unique needs and align Entrepreneur Support Organizations (ESOs) and resources in the community around a common mission of helping more local entrepreneurs succeed.
