# M-ERT Member Receives Collier Public Service Award

This annual award, especially dear to the MIT community, is named in honor of Sean Collier, the MIT Police officer who was killed while protecting our community in the days following the Boston Marathon bombing. The Collier Medal is bestowed upon a person who embodies Sean's open-hearted kindness and dedication to serving our community.

# Stephanie Helm Does Podcast Interview With WBZ Radio Regarding Ransomware

Ransomware attacks have been in the news lately, but what are they, exactly? Do they just affect businesses and governments, or can individuals be hit, too? Stephanie Helm, Director of the MassCyberCenter, talks with Nichole about the ins and outs of these cyberattacks, how phishing can make you vulnerable, and how you can protect yourself. Todd Glickman, a volunteer at the Seashore Trolley Museum in Kennebunkport, Maine, joins Nichole to share the incredible history of the fleet of trolleys, buses, and trains they have on their 300 acre museum lot.

# Carolyn Kirk and Megan Marszalek Attended a Graduation Ceremony for Participants of MassRobotics' First Jumpstart Fellowship Program

MassRobotics launched the Jumpstart Fellowship Program to provide opportunities for Black and Latinx high school girls to learn about careers in robotics and develop their professional networks through direct engagement with industry professionals.

This first cohort consists of 8 girls from a variety of high schools throughout Greater Boston. They met at the MassRobotics offices in Boston over April vacation (April 19-23) and Saturdays through June to receive training and mentorship, prior to beginning their summer internships.

Training included technical skills such as design, fabrication, and coding as well as the development of soft skills, resumes, and professional portfolios.

Program participants will be embarking on paid summer internships at 1 of the 4 participating companies where they will be matched with mentors and provided meaningful work. The participating companies are Lightspeed Manufacturing, Greensight, Autonodyne, and Activ Surgical.

MassTech has sponsored this program by providing funding for the 8 \$1,000 training stipends that the participants receive at the graduation. MassTech has also opened its Intern Partnership (MTIP) program to the robotics companies that have agreed to hire the program participants as summer interns. This allows the companies to be reimbursed for up to half of the intern salaries and equates to a \$19,200 sponsorship from MassTech.

# Mass Digital Health COVID-19 Recovery Challenge
